- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of September 23, 1976, (based on reports from exporters for the week ending September 12, unless otherwise noted):

Wheat: Sales activity of nearly 140,000 MT (metric tons) was the slowest yet during the 1976/77 MY. The only major new sales were to Italy, Japan and Venezuela. Around 25,000 MT of Soft Red was switched from West Germany to East Germany and shipped. The most important feature was the reporting of a 103,600 MT sale (under the daily system) to Korea for 1976/77 delivery. The dullness in sales activity was matched by the slow export week, with less than a half million MT shipped.

Corn: Sales activity slowed last week as the 1975/76 MY draws to a close. With only 3 weeks remaining in 1975/76, most buyers have switched their attention to new crop corn. However, Italy purchased 174,900 MT for shipment prior to September 30. In addition, sales to unknown destinations declined as the European Community and Japan were declared as the ultimate destination. Sales for export after October 1 were slow with around 200,000 MT to The Netherlands accounting for most of the new business.

Grain Sorghum: Sales for 1975/76 were heavy with the purchase of over 90,000 MT by Venezuela (part of which was reported last week under the daily system) accounting for nearly 80 percent of the total. The Netherlands was the only other customer for 1975/76 MY sorghum. Venezuela also purchased 50,000 MT for delivery in 1976/77 (reported last week under the daily system). Sales for 1976/77 continued to climb on the strength of this purchase and an increase to unknown destinations. The pace of actual exports was one of the heaviest in recent weeks, as over 150,000 MT cleared.

Barley: Sales totaled over 50,000 MT for the third week in a row with Europe continuing to be the principal market. The U.K. and France bought for the first time this marketing year, while West Germany added significantly to their earlier purchases. Other important customers included East Germany and Cyprus. In addition, optional origin sales increased by around 44,000 MT. Export sales for 1976/77 already account for around three-fourths of the export projection.

Soybeans: Sales activity continued moderately heavy with the EC accounting for nearly three-fourths of the increase. Sales to Japan rose by over 70,000 MT with most of the increase a switch from unknown destinations. Exports to Japan comprised over 50 percent of the weekly soybean exports with the balance going to the EC and Canada.

Cotton, Rice, Oats, Soybean Oil and Meal: Showed no significant activity.
